Additional convenience to welcome visitors

To make sure you hear the ring even from afar, the indoor monitor doubles as a chime to deliver pleasant ringing tones. It thoughtfully provides a variety of ringtone choices[3] to better fit your home vibe.

Elegant design elevates your front door

The CP7 kit adopts a refined, minimalist look, with a simple, consistent glossy black for both devices. A standout from traditional intercoms, the CP7 satisfies modern tastes for a stylish home. The indoor monitor screen also maximizes the touch area, enhancing the whole user experience.
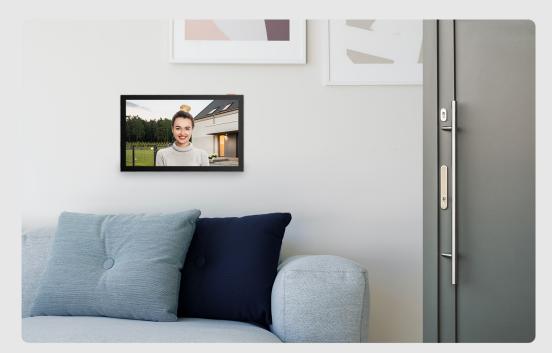

Steady connection for boosted performance

To maximize the connected experience with remote controls, you can connect the indoor monitor to either the 2.4 or 5 GHz band. Enjoy strong Wi-Fi with lower latency, larger bandwidth, and a stable signal.

Enhanced viewing pleasure with smaller video files

Compared against the prevailing H.264 video compression technology, H.265 creates a more fluid viewing experience with recorded footage. Meanwhile, you won't have to worry about large video files taking up too much of your storage space – H.265 technology can reduce their sizes by up to 50%[4].
